1. READINESS ASSESSMENT

- ✅ Are you currently using Snowflake, on-prem SQL Server, or another platform?
- ✅ Do you want that your workloads to migrate?

2. ARCHITECTURE QUESTIONS

- ✅ Do any of your use cases require real-time data access?
- ✅ Will your migration need Power BI or Azure integration?

3. COST & LICENSING

- ✅ Have you calculated current costs for compute, storage, and licensing?
- ✅ Are there consolidation opportunities with Microsoft Fabric?

4. TEAM READINESS

- ✅ Does your team have skills in SQL, Python, Azure?
- ✅ Will your team need training or migration support?

5. TIMELINE & FUNDING

- ✅ What is your ideal migration window (0–3, 3–6, or 6–12 months)?
- ✅ Are you eligible for ECIF (Enterprise Customer Investment Funds)?
